

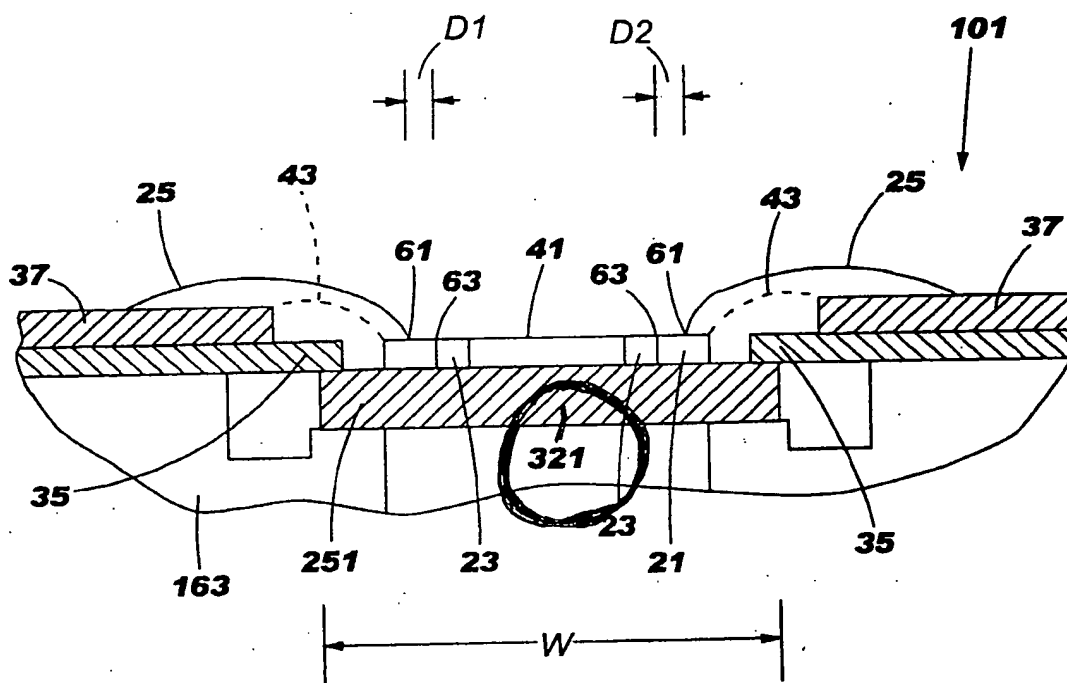

FIG. 5A

This cross-sectional view shows a nozzle assembly. A central nozzle plate (11) is positioned between two tape layers (25). The nozzle plate has a central opening (321) and is surrounded by a nozzle plate width. The tape layers are defined by a tape width. The assembly is supported by a base (35) and includes various structural elements labeled 13, 163, 21, 23, 251, 37, 41, and 51. A circular feature (321) is highlighted in the center of the nozzle plate.
